Early Childhood Education

2011-12

Associate in Science Degree in Early Childhood Education

This program centers around the continuing experience of supervised teaching combined with intensive classroom instruction. Basic principles of early childhood education and child development, including curriculum for preschools and caregiving for infant centers are introduced the first year. In depth study of language and cognitive processes of young children and an introduction to exceptionality is the focus of the second year. Throughout, there is considerable emphasis placed on developing personal interaction styles consistent with fostering good staff relations, knowledge of community resources, and awareness of and sensitivity to the diverse populations with whom the student will work.

Careers in Early Childhood Education

This degree is primarily designed for those who wish to direct or teach in early childhood programs, or who wish to transfer to a California State University to earn a Bachelor's Degree in Early Childhood Education. An ECE degree can also lead to career options such as elementary teacher, employer sponsored child care consultant, resource and referral specialist, child psychologist, children's writer and other family/child related positions.
