# Global Studies

## 2011-12

### Associate in Arts Degree in Global Studies

Technology has permanently transformed our planet. It is no longer rational to think in terms of the vast geographic barriers separating nations when we can be transported almost anywhere in a matter of hours. Events which previously took weeks or even months to be reported to the rest of the world are not only reported but can have impact almost immediately. Even a casual glance at the arenas of politics, trade, mass media and technology will serve to illustrate these dramatic changes, and make one aware of the importance of the field of International Studies.

### Careers in Global Studies

This major is appropriate for career fields in the international arena such as linguistics, international business, environmental studies or diplomacy.
