Diversity Issues in Early Childhood Education

2011-12

Certificate of Achievement in Diversity Issues in Early Childhood Education

This certificate program is designed for students who wish to work with bilingual/bicultural children and families in public and private child development programs. The course work offers both theoretical background and practical experience in bilingual education and the development and psychology of the bilingual child.

This program centers around the continuing experience of supervised teaching combined with intensive classroom instruction. Basic principles of early childhood education and child development, including curriculum for preschools and caregiving for infant centers are introduced the first year. In depth study of language and cognitive processes of young children and an introduction to exceptionality is the focus of the second year. Throughout, there is considerable emphasis placed on developing personal interaction styles consistent with fostering good staff relations, knowledge of community resources, and awareness of and sensitivity to the diverse populations with whom the student will work.

Careers in Early Childhood Education

This certificate is primarily designed for those who wish to teach or direct in bilingual/bicultural early childhood programs. However, an ECE certificate can also lead to career options such as elementary teacher, employer sponsored child care consultant, resource and referral specialist, child psychologist, children's writer and other family/child related positions.

NOTE: A department application is required before enrollment. Applications available year round.
